Neighbourhood Partnerships are a new way of working in communities across Edinburgh. The partners include the Council, Police, Health, voluntary organisations and the community.

Our aims are:

- to listen to, consult with and involve communities
- to work better together to provide better services
- to focus our services on local needs and priorities.

We do this through a variety of methods including public meetings, other events and local themed 'action groups'. Details of these are publicised through our website or by e-mail. If you would like to join our mailing list, please contact us.

For details of our Community Plan and its key priorities, please go online as below or contact us to request a paper copy.

We can also provide small grants to groups to carry out local projects. Further details can also be found online or by contacting us.

Your call is important to us – especially if it's about police business.
