

-Born To Bake-

To learn to bake and stay healthy and learn recipes off by heart. We are doing this project to encourage younger children to bake healthy recipes and have fun. We also want to try and make our own recipes and test if they're good. We run this club to give children free time and time to relax and have fun.

The project's benefits are to make younger children to eat healthier and live longer. We also want more children to learn how to bake and make amazing recipes. We also encourage children to keep clean while baking and stay safe.

Gorgie 'Mem' Community Centre provides services to the community of Gorgie and is a popular, friendly and safe place for locals to meet.

The Centre is a Scottish Charity (Scottish Charity Number: SC023903) run by a management committee (board of trustees) made up of local residents.

The hall provides regular under 12's children's activities in Gorgie during term-time (Friday Children's Club and Saturday Art Club) and also offers a range of activities for this age group and older young people during the holidays e.g. street dance, arts and crafts and games sessions.
